DOOTHAN, ALABAMA TUESDAY EVENING, JULY 12, 1900.

NUMBER 617

## PRINCE IN DOTHAN JAIL

### WRONGS GIRL SENDS A BULLET CRASHING THROUGH HIS BRAIN

Could Not Endure Life With Girl  
He Had Betrayed Only  
Married One Day

Linden, July 12—Brooks Flowers, 21 years old, committed suicide this morning at the timber camp of the Nevers Lumber Company about seven miles south of Linden.

He shot himself in the temple with a 32 calibre pistol and was dead when found a short while afterwards by Leland Autry, an ox driver.

Sunday young Flowers was arrested in Linden as he was making his way to Demopolis dressed in uniform ready to go to confinement at Montgomery. He was arrested by Constable Joe McClure, of Shiloh, who wanted him on a serious charge.

He was returned to his home near Pembert Hills, where he married Miss Laura Brackley, the girl he is alleged to have wronged. Last night the couple spent the night at the home of the bride's mother, Mrs. Mollie Brackley.

This morning he left his wife at her mother's and went to the camp, about one mile away and took his own life. He was the son of James A. Flowers, a highly respected citizen of Pembert Hills.

The woman who figured in the unfortunate affair is 24 years old and is also of good family. The funeral will be at Pembert Hills Tuesday morning.

and each deserves our special thanks.

Other favorable publicity has been secured without cost to the Club through a write-up of Dothan and Houston county published in a hand book on Alabama by the State Department of Agriculture, also by advertisements on laundry boards and railroad time tables. Having at first compiled and published an illustrated booklet on Dothan the Club is better prepared to prosecute this feature than ever before.

The Club was largely instrumental in getting the double daily passenger schedule from Dothan to Lockhart resumed. Also in securing better freight and passenger service on the A & St. A Bay R. R. It was at the suggestion and work of the Commercial Club that we have two express cars a day from Montgomery and points north, and which is such a great convenience to our people.

The Club has done considerable work in getting freight rates reduced. The A & St. A Bay R. R. has reduced the rates 12 1/2 per cent from New Orleans, Mobile and western points, while the other roads have reduced their rates on bananas, rice, coffee and other commodities.

A big improvement in the accommodations at the Central depot has recently been made because of the work of the Commercial Club. The Club has also brought about the re-wiring and lighting up of the county courthouse. The post office is kept open in the evenings after nine o'clock for the convenience of the people because the Club pays part of the cost of the lights in the lobby.

Since organization last July the Club has earned, collected by subscription and dues \$2,341 20 which has been used in prosecuting the various phases of the work.

(Continued on Page 6)

### SHERIFF BUTLER RETURNS FROM NORTH CAROLINA

Where Prince Had been Apprehended by Officials Date for Hearing Not Set

Sheriff T. W. Butler returned to Dothan last night on the 11:45 Coast Line train from Marion, N. C., with A. M. Prince in his custody. This morning Prince is in the county jail, resting in a cell within three blocks of the place where he attempted to cut his wife's throat with a razor.

Prince was captured near or at Marion, N. C., but Sheriff Butler refuses to give out any information regarding the arrest. When told that some were under the impression that Montgomery officers effected the capture he stated very emphatically that they had nothing to do with it. The arrest was brought about through correspondence between Sheriff Butler and the North Carolina officials. Prince aided in his own arrest materially by the letters that he wrote back to this place. These letters it is understood will be used against Prince when the trial comes up. Some of them are said to be of such a nature as to be of material aid to the state.

It will be remembered that following much domestic unhappiness, several separations and other troubles, including an assault on his wife by Prince in a Montgomery store, Prince entered his wife's room at her father's home on North Appletree street one morning some weeks ago and tried to kill her by cutting her throat with a razor. The razor struck Mrs. Prince's chin, and was slightly turned from its course, thus saving her life. Mrs. Prince has since recovered.

Prince will probably have a preliminary trial but the date has not been set.

### THE SECRETARY'S ANNUAL REPORT

Board of Directors, Dothan Commercial Club, Dothan, Ala. Gentlemen—In this report, I desire to review some of the more salient accomplishments of the Club during the past year. At the outset, I do not personally claim credit for the accomplishment of these good things done in the name of the Club. Nor in some cases is the Club to be altogether credited, but it has in some way been instrumental in bringing about the desired end.

Among the first important things done by the Club soon after organization last July was the extending of an invitation to the Alabama Press Association to meet with us this year. The invitation was pressed later and the editors came last month, and now Dothan and Southeast Alabama is receiving thousands of dollars worth of publicity from every part of the state.

Although but little money has been available for advertising I have at different times secured complimentary notices of the resources and progress of Dothan in the Washington Herald, The Tradesman, Industrial Index, the Manufacturers Record. Just here, I want to say that the home papers, the Eagle, the Journal and Wiregram Siftings have been most loyal in boasting and prodding the welfare of our city.

## SOME ECHOES FROM THE ALABAMA PRESS ASSOCIATION

### GREENSBORO WATCHMAN

In the southeastern portion of Alabama, in the new county of Houston, is located the city of Dothan, which is one of the marvels of Alabama, so far as rapid and permanent improvement is concerned. What Birmingham is to the mineral district, Dothan is to the agricultural section of southeast Alabama. Less than twenty years ago Dothan hardly had a habitation on the map, and was known only as a small cross roads village in the county of Henry. In those early days it was a favorite camping ground for the people who traveled the old St. Andrews Bay public road because of the large and beautiful spring, known as Poplar Head.

Today this favorite watering place of the old time is right in the heart of the business district of the city and over it has been erected a handsome two story brick structure, but the spring continues to flow and from it is obtained the water for a large and commodious swimming pool situated in the rear of the building which goes above the old spring.

The larger portion of the inhabitants of the Dothan of today have grown up with the place, and no more loyal people to their town ever heard. Everybody takes a pride in the advancement of any cause that tends towards the upbuilding of Dothan. Engage any citizen in conversation and he will entertain you for hours with accounts of the past, present and future possibilities of his city. The people of Dothan are nearly all native to the soil of southeast Alabama, and are a living illustration of what our own people can do when they work at it for the advancement of their section.

To the straggling little village of twenty years ago situated out there in the midst of the wild spreading acres of rich and level lands the railroads came and at once began the marvelous development of this hitherto almost unknown weegram section of our state and there has emerged from the solitude a city of some ten thousand inhabitants—prosperous and happy. Every modern convenience has been inaugurated—water works, electric plant, cotton mills, sanitary sewerage, ice factories, telephone and telegraph systems, cotton compresses, and manufacturing industries of various kinds. There are splendid church edifices, fine public school buildings, four railroads, four national banks, one daily and three weekly newspapers, United States government building, and elegant homes of the prettiest architectural types.

A ride through the country surrounding Dothan will disclose the cause and also the foundation upon which rests the success of this young giant of the weegram for miles and miles the rich farms stretch in every direction. The soil is a gray sandy loam with clay subsoil. On these rich acres are residing white farmers—each owning his forty to one hundred and sixty acres of land. Neat cottages are to be found on every farm, and a prosperous farmer resides in every home. The lands are cultivated under the most improved system, and a bale of cotton to the acre is the com-

### TO PARDON LONG

#### MOTHER PETITIONS FOR HER SON'S RELEASE

Was Convicted of Stealing Turkey and Given Six Months in Jail

Mrs. Long, mother of Ike Long, who was convicted of petit larceny, at the June term of county court and sentenced to six months hard labor for the county for stealing a turkey from Mr. W. H. Branks was in Dothan today, circulating a petition for her son's pardon.

Ike has only served about four weeks of his sentence and the people about the court house thought he had not been there long enough to earn a pardon. He was recently impeded by falling coal and a mother's love for her son prompted Mrs. Long to try to secure his release.

### SMART GETS APPOINTMENT

Mr. R. E. Smart today received his appointment as Hospital Sergeant on the staff of Col. J. Hubbard, colonel of the First Regiment, Alabama National Guard.

This is quite an honor for Mr. Smart and his many friends rejoice with him on his appointment.

Dothan is now well represented in the staff of the Colonel of the First Regiment of which the Dothan Guards are a part. Rev. W. S. Payne was recently appointed Chaplain of the regiment and Mr. Smart's appointment as Hospital Sergeant gives Dothan two men, which is quite complimentary.

### COSACKS NOW OCCUPY TEHERAN, SHAH MAY FLEE

Teheran July 13—One thousand Nationalists entered Teheran at 5 o'clock this morning by three gates. The Cosacks occupied the Central Square and surrounding streets.

### COMMERCIAL CLUB

#### OFFICERS WERE ELECTED FOR ENCLING YEAR

The Annual Report of Secretary Shows Much Good Has Been Accomplished

The Commercial Club held its regular meeting last night at the council chamber. There was a large attendance and the meeting was an enthusiastic one.

Secretary E. L. Layfield made his annual report, showing what the club had accomplished in the last twelve months. This report was very encouraging, indeed, and made the members feel good to know that their efforts were meeting with success.

A proposition from Mr. L. Heckinger to bring German farm immigrants to this section was referred to the Immigration and Agricultural Committee with instructions to act.

Messrs. P. M. Carlisle, A. J. Smith and M. Levine were appointed a committee to make pictures of the splendid crops around Dothan to be used in advertising this section. This is a good idea. While other sections are suffering from poor crops, these pictures sent out over the country, showing our bountiful harvest, will no doubt result in great good.

The following officers were elected for the ensuing year:

R. D. Crawford, president; E. R. Malone, vice-president; E. L. Layfield, secretary.

The following directors were elected to fill the place of those whose terms expire this month: R. D. Crawford, E. R. Malone, M. Cherry, M. Levine and O. R. Morgan.

A Chickering piano in good condition, at your price. See it at 107 N. Foster Street. W. S. Harris jeweler.

The good news comes along that flour will be off in price, with in a week or ten days and the ingredients are only keeping enough on hand to make pie-crust.

It was but a few years ago when not half a dozen people left town for a summer vacation, and now those who are forced to stay at home during the summer feel that they must apologize for it.

## HONESTY WILL BE REWARDED

Here the other day at Murphy'sboro, Ill., a wealthy man dropped his roll containing \$25,000 on the train. The boy who swept out and cleaned up the car later found it, and instead of going off in a hurry to blow it in, he knew that by doing right he would be rewarded. He looked the owner up and returned the roll. The owner looked over it curiously, to see this it was all there, and asked out a dime and handed the honest youth.

## GOOD STORY, BUT OLD

An old settler told a good story the other day. He knew a man who moved to town and went in the dray business, with two little red mules and a red wagon. Things went well, and the man opened a mercantile business and it prospered. Everything he got money in went well, for he looked after it. It was but a short while before the fellow was worth over twenty thousand dollars and his credit was good for as much more. At about this stage of it game, it suddenly occurred to him that he had never enjoyed many of the good things of this world and as he had always had as good as on good whiskey, but had never had time before to drink any, he started on it first. Before he got his appetite satisfied, you know, money gave out. He was a fellow who couldn't look at his reflection through the mirror while emptying a glass without company, and he found it no trouble at all to get company, when there were glasses to be emptied. When he went back to look up the pair of little red mules to start in business again, he found them much the worse for wear. They had died, and looked as if the world had been using them since they got away from him. He, too, was aged, and he couldn't take up business where he did but a few years before. He found nobody who had faith in him. They had seen him spend a fortune, and had no idea that he could make another, at his time of life, and he didn't.

The Age-Herald says that Dothan needs a \$100,000 library that uncle Andy promised them if the city would raise a similar amount. The Weekly says "we don't." It is standing guaranteed to show to the world that this kind of a gold buck cannot be pinched off on the Marvel Ott.

## NOW SLOWLY WE LEARN

If the people in Mars learn things faster than they do here on the home plate, we are perfectly willing that any amount of money be spent to get in position to hold some conversations with them. We want to form them at once.

There is not a boy in this town I believe that all the undiscov-

ered before it turns many more corners.

Yet we were several thousand years finding out what caused you low fever and malarial fever. Now we are all of us ashamed to acknowledge that it is something they red a decade ago.

After the blackberry season is past, and left me quiet and awkward owing to the disgusting remarks about their seeds causing appendicitis we are now told by people from different quarters that appendicitis is not caused from the seed of fruit at all but is another cause of constipation. You can't find a blackberry in Houston county now. Can't find many people who ate many things as such. Lots of negroes quit them and you know the reports as ultimate.

But few of us ever sat down to think just how long the world has been revolving and still it was less than 300 years ago when a some ventures in yellow found out it was round. During all those years the school children have been taught that the world is round and many of them believe it to be true. Their parents don't even know. You can take a pull 300 yards from now and still find some who won't believe it is round.

Somebody the other day, I like to ring a bell to mind the folks that it was time to get to winding up back when it was a job to get folks out. They would be scared silly about foretelling all about church till church is over and some preacher thought it might not be out of place to ring a bell. Others adopted the same habit, and thousands of dollars have been spent on bells and bellringers have grown rich at their trade.

Not one man or woman in a hundred and ten thousand ever goes to church because they hear the bell. They know before they leave home when church will start for they heard the preacher in number of the previous meetings and if they were not there they know at what hour to show up.

The bell is rung every Sunday morning about the time the chick on a neck is winging and the old bags and houseware put on for the next. Everybody knows why it is being rung and nobody objects. Nobody has thought about climbing the steeple and padding the clapper or clipping the rope.

If there is a bad remark to be made when Sunday's here is over it is often cut into four pieces and floated away. In sound waves of the bell for the bell must be rung to remind the congregation their assembled and those at home, powdering their faces that within a few minutes preaching will start. Much the bell is ringing while the preacher is standing up with one arm raised in attention telling the folks that preaching services will be held in that room in not fifteen minutes. He makes the words to take hold of the car bells for the church bell is using them to tell the same story.

When one wishes to go off on the eleven o'clock train one does not stay at home till the engine blows for the station. And then he never finds it necessary to blow over half a dozen times. I ride on the train one must sit there when it leaves. That's why it's forgotten and is all the more a stickler.

If there is a sick child across the street who has fallen into the first peaceful slumber for hours it is liable to be thrown into fits by the bell. But the bell from a church bell mustn't be interfered with. The people must know when to attend church and must be reminded of the several services by fifty seven rings for each service.

When the Methodists of Dothan outgrow their little old church and tear it down and put the bell a dandy good one too, to one side thinking that it

wouldn't be necessary to buy a bell for the new building.

When the new church was finished the steeple was too high to set the bell up in it was quickly passed out among the members that bells were not used any more we don't know which. Anyway the board of supervisors let the bell stay off the west off on the inside of the tower or give it to some young church as forget which.

The Baptist church has a good bell which it bought some

several years ago and it pays an

of \$1000 a year to keep it

in good condition.

It is a good bell and

### ATTEMPTS TO PROVE THAT THAW IS SANE

Commission Will Decide His Case.  
Citizens Tell of Rational Conversations

White Plains, N. Y., July 13.—If counsel can agree, a commission of three alienists, mutually selected, will pass upon the question of Harry Kendall Thaw's sanity.

This was practically decided before adjournment today at a continuation of the hearing before Justice Mills, in which counsel for Stanford White's slayer are trying to establish his right to release from the asylum for the criminal insane at Matteawan.

With all of today's testimony in favor of Thaw, the indication was that his wife Evelyn Nesbit Thaw will take the stand in his behalf tomorrow and with District Attorney Jerome eliminated Thaw's chances for release appear brighter than at any time since his commitment.

After a string of witnesses who testified to Thaw's soundness of mind, had taken the stand today Roger Clark, Deputy Attorney General, who is conducting the people's case, informed the court that he had been so much impressed by Thaw's intelligent interests in the issues at stake that he was willing to concede Thaw's right to a full and impartial examination. He suggested that counsel for Thaw and counsel for the people agree to a commission of three expert alienists, whose decisions should be fully accepted by both parties to the suit. Charles Morchauser for Thaw, agreed and asked that Dr. Baker, superintendent of the state asylum, and Dr. Austin Flint be named as two of the three.

Justice Mills favored the suggestion for a commission, but was of the opinion that the state ought to name two of the three experts. With that exception he left the personnel of the commission to be determined by joint counsel.

Mr. Morchauser pressed for an other advantage for his client by asking the court that in the event of the selection of a commission in any one who testified in previous proceedings be barred from the examination now in progress. Justice Mills left the point to be decided by counsel.

## SECRETARY'S ANNUAL REPORT

Continued from page one

A cigar factor we secured for the city last fall through the Club and it has been running very successfully since. We have also secured a trio of Fodors from South Carolina to open a studio of fine music and expression here in September, who will also open in connection with the public schools and thus give the children of the city higher cultural advantages at a nominal cost. A veterinary surgeon and several other people were induced to come here to live through the Club.

Looking into the future a bit the Club has already taken steps towards getting two passenger trains a day to run from here to Dothan and Enterprise, the lighting of the courthouse clock at night, the making of Dothan headquarters for the United Sons of the Confederacy, the establishment of a chautauqua in Dothan, the opening of St. Andrews Bay park, the further reduction of freight rates and the securing of a new rail and more people and money in our industries.

With a general wave of prosperity before us and splendid crops at good prices immediately before us the outlook is most promising for the Club and to the town. Let us all put our shoulder to the wheel and unitedly work to make Dothan a bigger and a better place in which to live.

Respectfully submitted,  
E. L. MAYFIELD, Sec.
